Full-Stack Developer

I dedicate myself exclusively to web programming for 2 years and I have been studying programming for 7 years. Lately I am acquiring knowledge with node.js structures, ejjs engine Outstanding in the sector, for designing a front-end dynamic, attractive, modern and above all, interactive and intuitive for the user.

On the other hand, I have been developing relational tables for more than 4 years. (sql, mariadb, alwasdata), the technological advance made it incorporate tables non-relational (mongodb, mongoose) to incorporate I carry out a react course applying this type of table.
